“ John was our neighbor for many years when I was growing up. I was a young boy when John taught me how to catch a garter snake. When I got my first car he gave me a Hurst shifter, to replace the standard round ball that was on the floor shifter. Years later I hired into GM Truck and Bus as a metal press operator. My press broke down one day and when the die repair man showed up to fix my machine. My face lit up with a big smile when I realized it was big John Frazier my neighbor, my friend, and now my coworker. John wore many hats as he walked through life, father, husband, repairman, friend, supervisor, fireman, mentor, roll model, and the list goes on. I will always remember his kindness and his willingness to always stop and listen. To say John was a good man would be an understatement. I have a great deal of respect and admiration for John, and I'm so grateful we became friends...he truly touched my life. Thank you John I salute you my friend!

*John was one of those folks that put his "all" into any assignment he had. He was a man with great determination.
It was a pleasure to be able to work in the same department as he brought not only his knowledge but many smiles along the way.Those were the good old days for certain.
I am thankful that both myself and my late husband, John Bax, kept in contact with him. It was always very touching when he called me," Ma Bax".
May you Rest In Peace, "Frazier"*

“ I was a kid following my dad around Orion fire station 3 (Gingellville y'all)! John was the Chief of that station and was a mountain of a man. He led by example and those that followed him knew he would not send them to do what he wouldn't. I know my dad looked up to him too. He was always encouraging me to take up firefighting, I did for 35 years and he was one of the reasons. I also loved his red four wheel drive Chevy pick up. I have many fond memories with John, my prayers are with his family.
