“ John was a great Engineer for Electronic Specialty Company. He was very thorough and organized. If we asked a question about a job that he thought we should know we would get the “hand chop” and clenched teeth as he explained our issue through clenched teeth. He was very meticulous also. We have missed his input on jobs and his knowledge. He is sorely missed and will be remembered fondly. Am sorry for our loss. Thank you for letting us know of his passing. *Ed Dye.*
