“ Bob was a very special person for me. When I came to work at the South Charleston Plant in 1964 as a new engineer fresh out of college, he took me under his wing and helped me start my job successfully. We became good friends, and I got him involved in the local sports car club where we drove in many events together. I still have some pictures of him driving his Datsun sports car. I'm very sad about his passing but glad he lived so long.
